

The Clinitas Range - TLC for dry eye

HOW THE CLINITAS RANGE CAN HELP?

CLINITAS SOOTHE

Soothe is a gentle preservative-free eye drop in a re-sealable dropper for all day use.

Usage: Each container has an average 8 drops and can be recapped for a maximum of 12 hours for use throughout the day. Soothe contains the highest commercially available concentration of sodium hyaluronate (0.4%), a natural water binding material that increases tear film stability and stays in the eye longer.

Composition: Sodium Hyaluronate 0.4%; Monobasic Sodium Phosphate; Dibasic Sodium Phosphate; Sodium Chloride; Water for injection

Features: Preservative-free - supplied in a re-sealable dropper unit - Contains Sodium Hyaluronate at the highest available concentration

Packaging: 20 x 5ml doses

CLINITAS HYDRATE

Hydrate is a gel that increases the tear volume to lubricate and comfort the eye for up to 6 hours, making it excellent for overnight use and on waking.

Usage: Clinitas Hydrate is a high performance liquid gel drop that rapidly lubricates the eye giving instant comfort. The carbomer component boosts the aqueous layer of the tear film. Clinitas Hydrate can stay on the eye for up to 8 hours giving prolonged comfort. This product is ideal for overnight use and/or on waking. Clinitas Hydrate is particularly good for episodic and regular dry eye discomfort including watery eyes caused by wind and pollution

Composition: Carbomer 980 0.2%, Cetrimide, Sorbital, Sodium Hydroxide, Sodium Edetate, Water

Features: Ideal for overnight use - Instant Comfort - Stays on the eye for up to eight hours-free

Packaging: 10g tube FROM 18th SEPTEMBER PRICE OF HYDRATE WILL BE R51.50 excl vat
